SSLC   **2017 – 2018**

Government Higher Secondary School- **Percentage** *–75.2*   *Namakkal,TamilNadu*

TECHNICAL SKILLS

SQL
- → Join operations
- → Group Functions
- → Command Functions
- → Stored Procedure
- → Trigger

Front end
- → Html
- →CSS
- →Java Script

MINI PROJECT

Hotel Reservation System ↗

- I Designed and Managed the Hotel Reservation System database using SQL scripts. This included creating tables for Customer, Room, Booking, Payment and Service, filling them with data, and ensuring accuracy through foreign key constraints. I optimized SQL queries to improve database performance and efficiently handles tasks such as updating, deleting and managing booking records.
- These experiences highlight my solid understanding of SQL and problem-solving skills

PROJECT

Alumni Management System

- I Designed and Managed the Alumni Management System using front end and database My SQL. The system is beneficial for alumni coordinator, pass out alumni student and institution.
- The Software System allows the alumni coordinator to add the details of alumni student, and the alumni can view their details, events and update their details.

CERTIFICATION

- MySQL Certification – Besant Technologies
